A magnificent medieval fortress is the pride of this small village, though you can only admire it from the outside. If you feel the need for a contrast to the relaxing pace of the canals, from Chevenon, you can book a taxi and go to the Magny-Cours Race Circuit (12km from the mooring). This race track hosted the French F1 Grand Prix in 2008, and motor sports aficionados will love the museum with its exceptional collection of Formula 1 cars, a Formula 1 simulator and an outdoor go-kart track.

Recommended restaurant: Absolue Renaissance, located in Magny-Cours, 2 Rue de Paris.

Amenities: Bakery, 1,5 km from the mooring.

NEVERS

Palais Ducal, Nevers

To reach the historic city centre of Nevers, cross the bridge spanning the Loire River and make your way towards the cathedral. Next to the cathedral, you'll also find the Palais Ducal, the historic residence of the Dukes of Nevers, with its spectacular Renaissance facade. Follow the 'Le Fil Bleu', the blue line painted on the pavement from the Palais Ducal down Rue du 14 Juillet, and you will find yourself in the old pottery quarter of town. Several workshops remain, and the Frédéric Blandin Museum houses a beautiful collection of enamelled glasses and earthenware. St. Cyr et St. Juliette Cathedral is a combination of two buildings, defined by its Romanesque and gothic domes. You can also fly over the Nivernais countryside in a hot air balloon (Air Escargot, +33 3 85 87 12 30, departure and return at the Tourist Office).

Recommended restaurant: Restaurant Jean-Michel Couron, in the city centre, 21 rue St. Étienne (2km from the closest moorings). La Marine, Quai de la Jonction.

Amenities: All the necessary shops.

Market: Fri and Sat (am) – Place Carnot and Parc Salengro, 4km from the mooring.

GANNAY-SUR-LOIRE

Near the mooring, you can visit a pottery workshop and admire some of the artist's creations. Alternatively, stop at the PK49 to visit a goat farm. The owner will let you taste his cheeses, which are also for sale.

Recommended restaurant: La Vacancière,
50m from the moorings.

Amenities: Bakery and grocery store.

DOMPIERRE- SUR-BESBRE

We recommend you take the Dompierre junction and moor at the marina. From there, cycle less than 5km to discover Notre-Dame de Sept-Fons Abbey. You can't go in, but a film projected in one of the abbey rooms recounts the history of this abbey. Religious services are accessible to the public. At the entrance of the monastery, you can buy honey, jams, cheese, eau de Cologne, etc. made on site. 7km east of Dompierre-sur-Besbre, spend a day with the family at the amusement and animal park Le PAL. Watch the spectacles of sea lions and parrots. And 1km south of the mooring, there's a nice park and a rose garden, ideal for a walk or picnic. There's also a playground for children.

Recommended restaurant: La Roseraie, next to the Tourism office, 167 Grande Rue (500m from the moorings).

Amenities: All the necessary shops and a bakery.
Market: Sat (am).

DIGOIN

Digoin Aqueduct

Digoin is all about ceramics – many stores exhibit and sell products manufactured in the last three factories still in operation. The Ceramics Museum, located in the former Hostellerie de l'Écu de France, traces the history of ceramics from the Gallo-Roman period to the present day.

Recommended restaurant: Restaurant L'Évidence, rue Nationale – for an excellent meal!

Market: Fri and Sun (am) – in the city centre. SCala & Co., Rue Titus Bartoli. ·L'Escale, Lotissement des Peupliers, Avenue des Platanes.

PARAY-LE-MONIAL

Sacré Cœur basilica, Paray-le-Monial

Wander through the historic cobbled streets to discover the Town Hall with its magnificent sculpted facade; the St. Nicolas tower; and keep your eyes peeled for five chapels scattered through the town. As well as the many museums on offer, be sure to visit the Sacré Cœur basilica, a masterpiece of Romanesque architecture. Built in the 11th century, it remains an important place of pilgrimage. In July and August, the Tourist Office organises guided tours of the basilica, the cloister and the city (every day at 2:30pm). The brave can even hop on board a plane, a microlight or a glider and admire the landscape from above (aeroclubcharolais@sfr.fr).

Recommended restaurant: Trattoria Paola, 14 Av. Charles de Gaulle.

Amenities: All the necessary shops and bakery.

Market: Fri (am) – Boulevard du Collège & Sat (am) – Cours Jean Jaurès.

ROANNE

If you book a two-week cruise from Decize, you will have time to take your boat to Roanne. There is an abundance of religious monuments here and the most beautiful of them is St. Étienne church, clad in gold and pink stones. Not far from the port, the St. Nicolas-du-Port chapel was built in 1630 by sailors anxious at the idea of seeing the plague in their city. A walk along the busy shopping streets of the city centre will take you to the covered market, the Italian-style theatre and the castle. You can also discover collections of archaeology, paintings, sculptures and ceramics at the Joseph Déchelette Museum. And look for the different walls painted in trompe-l'oeil (an art technique that uses optical illusions to make objects appear three-dimensional) scattered across the city.

Recommended restaurant: For a Michelin experience, make a booking at Maison Bouquet, 17 Place du Marché. Or try Entre Deux Ô, 72 bis Quai Commandant Lherminier.

Amenities: All the necessary shops.

Covered market: Tue to Sat 8(am)-12:30(pm) & 3:30(pm)-7:30(pm) and Sun 9(am)-12(pm) – Place Diderot.

LOCKS

A few locks in the region are electronic and will operate automatically, however most of the locks are manual (i.e. the sluices and gates are opened and closed by a crank wheel) and are manned by a lock keeper. Occasionally, a lock keeper will look after a number of locks in succession, so you may have to wait for them to arrive. It is a good idea to set a crew member ashore before the lock so they can walk to the lock to receive your lines and most lock keepers appreciate assistance with the gates, under their guidance and direction. Please refer to the onboard Boat and Navigation Manual for more information about how to operate and pass through locks.

OPENING TIMES

Locks are open and passable seven days a week at the following times:

Canal du Loing <i>(except the lock at Moret-sur-Loing)</i>	The lock at Moret-sur-Loing
7am - 7pm	7am - 1pm 2pm-5pm

All other canals	Yonne River*
9am - 12pm 1am - 7pm	9:15am - 12:00pm 1pm - 18:45pm

MOORING

Moorings are plentiful and you are free to moor anywhere on the Petite Saone (between Auxonne and Corre) and along the canals where you can safely access the bank, using mooring pins provided on board. Exceptions are: if there is a sign indicating to the contrary, if you are on a bend or if you are less than 50m from a structure such as a lock or a bridge. Do not moor at waiting pontoons on either side of a lock (unless you are waiting for the lock). For overnight moorings, we would recommend you moor in a town or village, most of which have mooring bollards or rings to tie up to, although please refer to your waterways map for exact locations. Such moorings are usually free. You also have the option of mooring in a private marina for a charge of between €15-€30. Usually they'll have water refill points and electric hook-up facilities.

WATER

You will need to fill up your water tank once or twice during the course of a week. Water points are available at all Le Boat bases en-route, for free. Otherwise, there are several ports/marinas that will allow you to fill your tank for a charge of €4 - €10. In some marinas, you'll need to purchase tokens from the port office.
